This year's Haynes Annual Auction will be on **Saturday, November 19th at 7:00 p.m.** at Wedgewood Pines Country Club in Stow. There will be many one of a kind items to bid on!!

Science Enrichment programs enhance the curriculum by providing hands on learning from other educators from some of our finest local institutions. Each grade has 3 curriculum related programs each year that supplement their classroom science studies. Some of these programs include Whale Day for the 3rd grades and Tidepool Habitats for the 1st graders both sponsored by the New England Aquarium. The 4th graders learn about electricity and the 5th graders learn about the weather with programs provided by Techsploation. The Discovery Museum comes to present the Sound Program for the 1st graders and Light and Lasers for the 2nd graders. These are just some of the many Science Enrichment programs that come to Haynes! Please support Science Enrichment by joining us for this year's auction!

These festivals are a part of the curriculum enrichment made possible from the money raised at the Haynes Auction. Please support our children's enrichment by joining us for this year's auction!
